PICEA ABIES 'CUPRESSINA'

Columnar evergreen tree, with red-brown bark. Deep green 4-8" cones. Can withstand snow loads better than many other fastigate types.

B&B only
Sizes from 3-4' up to 6-7'

ZONE 3

PICEA ABIES 'PENDULA'

Grown in both staked and prostrate forms. The Weeping Norway Spruce has very pendulous branches with deep green foliage & produces long light-brown cones.

Sizes from 24-30" up to 6-7'

B&B and Pot-N-Pot
Zone 4

PICEA OMORIKA 'NANA'

Slow growing dwarf with dense, irregular branch habit & broadly conical form. Very fine textured short needles.

Grown in low or standard forms. B&B & Pot-N-Pot

Sizes from 15-18" to 24-30"

ZONE 5

PICEA PUNGENS 'FASTIGIATA'

A densely formed columnar tree with good blue coloration. Great for the narrower spaces that landscapers are facing in new developments.

Sizes from 30-36" up to 4-5'

B&B and Pot-N-Pot
ZONE 3

PICEA PUNGENS 'FAT ALBERT'

Upright pyramidal growth. Dense, full branching. Excellent blue coloring. Maintains fullness without pruning.
