CHICK CHARMS TRIO COMBOS

FROM GARDEN SOLUTIONS

The Three Amigos, Charlie's Angels, and now Chick Charms® - there's something about the rule of 3. Chick Charms® are simple to grow, easy to care for, but with the huge range of colors and textures where do you get started?

These hand selected trios give you the year-round color and texture without having to choose. The only danger here is once you start collecting, you won't be able to stop!

Available now from Garden Solutions!

Hibiscus & Rudbeckia photos courtesy of Walters Gardens, Inc.

DAHLIA 'SINCERITY' from Syngenta

The most talked about new introduction from the California Spring Trials last year, 'Sincerity' features gorgeous huge blooms all summer on tall, upright stems with the flowers showing beautifully above the foliage. This is already the best stand-alone dahlia on the market! Put it in a pot and let your customers eat it up!

Add it to your order from D S Cole Growers, Gro-N-Sell, Hardy Starts, Knox Hort, Lucas Greenhouses, PlantPeddler, Wenke Greenhouses.

PETUNIA AMORE™ 'FLUTTERING HEARTS' from Danziger

Amore means love, and what's not to love about this wonderful series of petunias with distinct hearts in the petals from Danziger. 'Fluttering Hearts' was introduced last year at CAST to rave reviews, and the entire series are best sellers for annual producers across America. Prized for being early flowering with a mounded habit, and flower patterns that are stable, unlike many of the newer petunias being introduced. Perfect for hanging baskets, 6" pots, and as complements in large mixed containers.

Add to your order from Hardy Starts, Headstart Nursery, Lucas Greenhouse, Mast Young Plants, PlantPeddler, Raker-Roberta's, and Wenke Greenhouses.

HIBISCUS 'DARK MYSTERY' from Walters Gardens, Inc.

Plan now to offer some of the most dynamic color you can have this summer! Plant bare root hardy hibiscus now in 2 gallon or 3 gallon pots, and have these beauties display their giant, dinner-plate sized flowers in July. Flowers open flat and are white with a cherry red eye and dark pink veining, and contrast well with the dark, wine-purple foliage.

Add some to your Walters Gardens order!

RUDBECKIA 'LITTLE GOLDSTAR' from Jelitto

Introduced just a couple of years ago and already one of our top selling perennials! You still have time to include them in your perennial offerings for this spring and summer. Much shorter and more compact than 'Goldsturm', 'Little Goldstar' forms perfect bushes at knee height, with rich green foliage topped by starburst-shaped, 2-2 1/2" golden yellow blossoms. Nearly seedless, 'Little Goldstar' will continue flowering much later in the season too. Growers will love it for being more uniform in production, and it's proven to be resistant to the black spotting starting to show up in 'Goldsturm'.

Add to your order from Creek Hill Nursery, Emerald Coast Growers, Green Leaf, North Creek Nursery, Pioneer Gardens, and Walters Gardens.

Pair 'Fluttering Hearts' with another icon in the series, 'Queen of Hearts' - a fan favorite!

Complement the pink in your your hibiscus line-up with Walters Garden's deep red beauty, 'Vintage Wine'
